Empower teachers with the
best data and learning

nwea Professional Learning

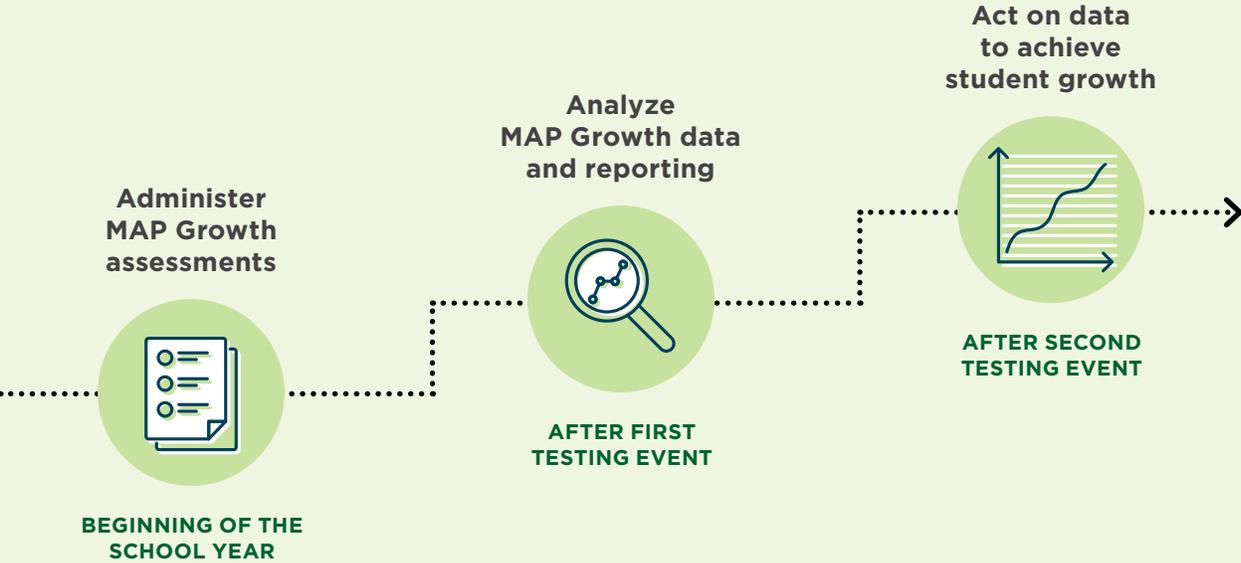

Educator and student success starts here

Let's partner to achieve your goals

NWEA® Professional Learning is grounded in the latest research and exemplar MAP® Growth™ implementations to help your district achieve its goals.

Not sure where to start? Explore our recommended professional learning pathway designed for your **first school year** of MAP Growth implementation. Most recommendations can be customized to include topics and delivery that work for you—on site, virtual, small group, or 1:1.

In your first school year of MAP Growth professional learning, you'll learn to...

YEAR ONE PROFESSIONAL LEARNING

Administer MAP Growth assessments

Get ready for a successful implementation, gain a solid understanding of what makes MAP Growth unique, and explore resources that help inform the process. Learn how to administer the assessments and discover data's potential power to engage students and inform instruction.

START HERE

Beginning of the school year

Recommended professional learning:

- **MAP Growth foundations:** This online course equips educators to administer the MAP Growth assessment and access, interpret, and apply the data. (*on-demand, online*)
- **MAP Growth basics for teachers:** This virtual workshop digs into key MAP Growth features, models assessment proctoring, and provides valuable strategies for student preparation and motivation. (*3 hours, up to 30 teachers*)

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

94.1%

of professional learning participants agreed that the learning could immediately be applied to their practice.

YEAR ONE PROFESSIONAL LEARNING

Analyze MAP Growth data

Comfortable with the basics of administering MAP Growth? Now get hands on with your reports. Then plan how to use your data to inform ongoing work, with a focus on goal setting with students.

NEXT

After the first test event

Recommended professional learning:

- **Essential reports for teachers:** Dig into the class- and student-level achievement reports and learn how to use the data to make student-centered decisions during this virtual workshop. *(2 hours, up to 30 teachers)*
- **Essential reports for leaders:** Bring together your administrators and district leaders to use the school-level achievement reports to identify school- and grade-level trends. *(2 hours, up to 30 leaders)*
- **Instructional coaching:** Dig deeply into MAP Growth reports to understand class- and student-level data and design instructional practices to meet students' needs. *(5 hours)*

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

92.9%

of participants felt that their session elicited and encouraged active engagement.

YEAR ONE PROFESSIONAL LEARNING

Act on MAP Growth data

Learn how to use MAP Growth data to reflect on growth across the classroom, grade, school, and district. Explore how to identify patterns and trends that can inform school or district goals. Develop action plans incorporating growth and achievement data to meet your school and district goals.

THEN

After the second test event

Recommended professional learning:

- **Student goal setting:** Dive into the class and student-level reports to incorporate MAP Growth data into goal setting. Plus, explore proven ways to increase student motivation, sense of ownership, and likelihood of success!
(2 hours, up to 30 teachers)
- **Instructional coaching:** Work with an instructional coach to build teacher capacity and efficacy that's grounded in data-driven instructional practices.
(5 hours)

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

Professional learning has been customized to meet the learning needs for our teachers, supporting them throughout their journey. Three years later, we are seeing great success.

Using our MAP data, the learning continuum, and formative assessment practices, our students are experiencing great growth, closing the achievement gap!”

Dr. Lori Stollar
Director of Curriculum and Innovation, Littlestown Area School District, PA
