MAP Reading Fluency with Coach

An integrated solution fully dedicated to supporting student reading growth

Assess early readers and provide them with personalized reading tutoring based on their individual areas of need.

AI-driven technology
Coach listens to students read aloud and detects oral reading errors to deliver micro-interventions that assist each student through the practices.

1:1 personalized tutoring
Using assessment results, Coach places students in personalized tutoring pathways to practice reading

Automatic scoring
Gives teachers fast, objective results and actionable data

Measure
Oral reading fluency comprehension foundational skills

Progress monitoring
Oral reading fluency and foundational skills

Student audio is recorded for easy playback

Dyslexia screener
Flags student performance that suggests possible risk factors for dyslexia or other reading difficulties

Reliable. Accurate. Valid.
Assess an entire class using one of the most highly rated assessments by the National Center on Intensive Intervention (NCII).

Adaptive test
Meets readers at their level

"My favorite things were the instant results and being able to test so many kids at one time."

Amy Black, Teacher
